1. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest a mold apparatus for injection molding a disk substrate as defined in the claims of the instant application. The closest prior art is disclosed by Japanese Pub. No. 06-198685 (previously of record), Kudo et al. (U.S. Pat. No. 5,552,098; previously of record), Shimizu et al. (U.S. Pat. No. 5,427,520; previously of record), and Shida et al. (U.S. Pat. App. Pub. No. 2001/0026817). None of these references teaches or suggests a gate cutter with a recessed portion formed at its tip opposite the projection portion a sprue bushing as defined in the claims.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
